About CardioGenics Holdings Inc.

Through its CardioGenics subsidiaries, the Company develops technology and products targeting the immunoassay segment of the *In-Vitro Diagnostic* testing market. It has developed the QL Care Analyzer, a proprietary Point Of Care immuno-analyzer, which will run a number of diagnostic tests under development, the first of which will be a series of cardiovascular diagnostic tests. As part of its core proprietary technology, the Company has also developed a proprietary method for silver coating paramagnetic microspheres (a fundamental platform component of immunoassay equipment), which improve instrument sensitivity to light. The Company’s principal offices are located in Mississauga, Ontario, Canada.
